HASHMICRO

Company Profile

About HASHMICRO

As a leading ERP provider solution, we recognize the importance of enterprises' productivity and efficiency. That is why, in 2015, we took the opportunity to set up a cloud-based system that automates end-to-end business operations. Our clients trust us for our capability to develop a system that complies with their regular and specific regulations. This motivates us to bring the benefits of ERP software to a greater range of industries and solutions.

Clients Testimonial

"

HashMicro's ERP software helps us automate our accounting, sales, procurement, and manufacturing processes, making everything easier to track. So, we can focus more on enhancing our business and relations with customers.

Bee Choo Origin

"

As a manufacturer with a large number of customers, we were looking for a system that streamlines our workflows. HashMicro helps to simplify our inventory management, also sales and procurement procedures. Therefore, we can focus more on improving our product's quality.

Designphase DBA

"

Every day, we receive a large number of orders that needed to be fulfilled quickly. HashMicro has helped us streamline our daily operations by providing us with a fully-integrated ERP system, from monitoring inventory and procurement to managing sales and finances.
